

Hosted BlackBerry Enterprise Server From GreenAppX

BlackBerry service from GreenAppX is the mobility application that links your handheld BlackBerry device with the BlackBerry Enterprise Server (BES). The BES synchronizes all of your email box activity on the Hosted Microsoft Exchange Server pushing email, calendar, contact and tasks updates directly to your BlackBerry – in real time.

What's included?

BlackBerry Enterprise Server Activation Fee

BlackBerry Enterprise Server Monthly Access*

Network-based Postini antivirus / anti spam filtering

Nightly Backup

24x7x365 technical support

**Requires Hosted Microsoft Exchange mailboxes hosted by GreenAppX*

What You Can Do With Hosted BlackBerry Enterprise Server (BES) From GreenAppX?

- Integration with your existing Hosted Microsoft Exchange Mailbox
- With "Always On, Always Connected" your email and updates are delivered immediately.
- View email attachments in almost any format
- Support for all BlackBerry mobile devices
- Streamlined restoration of all email if your hard drive fails

BlackBerry Enterprise Server Bundles

Enhance your Hosted BES service by bundling additional functionality

- SharePoint as a company intranet
- Email Archiving that helps your organization with compliancy
- Microsoft Dynamics CRM integrated into Outlook
