

McAfee Total Protection For Small Business From GreenAppX

McAfee Total Protection for Small Business is an all-in-one security services suite that provides small and mid-size companies continuous, up-to-date protection against viruses, spyware, hackers, spam and phishing attacks for their desktop and server users. The application includes the McAfee SecurityCenter console that centralizes configuration, reports, updates and group management simplifying security management for SMBs

New threats emerge every day. Spam, phishing, viruses and hackers can steal your valuable data and disrupt your network. Without constant updates, your anti-virus and security software becomes obsolete. Keeping your business continuously up-to-date requires total protection against all types of known and unknown threats.

Total protection means a comprehensive security solution that is always on, always ready and always up-to-date – in and out of the office. McAfee offers small business the industry's first truly integrated security solution application, managed by a single console, at an affordable price.

Application Features Include:

- Web-Based Admin Management Console
- Integrated Desktop and File Server Anti-Virus and Anti-Spyware
- Centralized Desktop Firewall
- Automatic Scheduled Real-Time Updates
- Advanced Email Anti-Spam and Anti-Virus Service
- Advanced Email Server Protection
- 24 x 7 Technical and Customer Support
