

## **Cisco WebEx Conferencing From GreenAppX**

Share documents, make presentations, and collaborate with people across town and around the world. WebEx conferencing lets you use the power of the Internet to hold meetings without leaving your office.

Conduct meetings with employees, customers and vendors as easily as if you were side by side. Just open your web browser to launch a WebEx web conference and communicate and collaborate with anyone, anywhere, any time. Your online meetings are private and your desktop privacy is under your control.
